

Frozen Croissants

Baking Instructions

1. To ensure your pastries are perfectly baked, we suggest removing them from your freezer 30 minutes prior to cooking and left on the baking tray to prove. However, be sure to not let them thaw completely.
2. **Preheat oven to 200-210°C**
3. Once fully heated, place the pastries into the oven and **bake for approximately 12-15 minutes** (or until lightly golden).
4. Take the pastries out of the oven and serve.
